

Great Plains Conference Clergy Coaching Agreement 2024-2025 appointment year On-going Coaching

The Clergy Excellence office believes that coaching can draw on the expertise and internal wisdom of clergy, helping them discern God-sized things that need to happen in their ministry or their lives, develop a plan to get there, and celebrate when it is reached. Coaching begins with the premise that everyone is creative, resourceful and whole.

Now that you have completed 6 coaching sessions, you have the opportunity to continue coaching. Here are the details for continuing the coaching you have begun:

1. The cost is **\$250 for 6 hours of coaching**. Typically, each coaching session is one hour.
2. You select who you want as your coach from the list provided if you want a different coach or continue with your current coach. The coaches are all clergy from the Great Plains conference who have been professionally trained.
3. You are responsible for scheduling the first coaching session, after you have contacted the coach to confirm they can add another coachee.
4. You determine the specific topics to be addressed for each coaching session. This is to help you develop as a leader, and so you set the agenda.
5. You will be asked to provide feedback to the Director of Clergy Excellence once you have completed the 6 sessions. The purpose of the feedback is to provide examples of how coaching has benefitted clergy and congregations. Comments you share might be used in publicity (with your permission and without your name if requested) but will otherwise not be shared.
6. You are encouraged to share information about coaching with your SPRC.
7. You will be given the opportunity to continue coaching beyond these 6 sessions, at additional cost, if you choose to do so.

Do you have other questions? If so, contact Rev. Kathy Williams, Director of Clergy Excellence, at 785-256-9685. If you are ready to continue developing as a leader, sign up [here](#).
